

Marathon[®]

WATER HEATERS

Marathon water heaters are considered to be one of the most energy efficient water heaters in the industry. In addition, Marathon heaters provide long lasting durability, functionality, and value.

Construction Features

Energy Saving Pipe Wrap Kit – reduces heat loss through plumbing lines

Temperature and Pressure Relief Valve – factory installed

Watertight Grommets – keeps out overhead moisture and condensation

Seamless Molded Non-metallic Inner Tank – can't rust or corrode

Fill (Dip) Tube – high temperature polysulfone withstands thermal storage and high temperature commercial applications

High-tech Heating Elements – upper element with built-in fuse protects tank against “dry fire”. Bottom element is long-life, low-watt density, stainless alloy

Polyethylene Outer Jacket – ‘car bumper tough’ to resist dents and scratches during transit, installation and beyond

Filament-wound Fiberglass Tank – has unmatched strength

Recessed Drain Valve – out of the way of brooms, feet and ankles
