# Your Electric Bill

(continued from other side)

This date indicates the **due date for current charges**. Upon second notice of nonpayment, an account is subject to disconnect.

This number is your **meter number**. It is linked in our office with your location. When reporting a power outage or service problems, this number is most helpful to our dispatcher and line crews.

These words or numbers are your **location description**, i.e., label for a particular building or a particular operation requiring its own meter.

**Kilowatt-hours (kWh)** is how your electric usage is measured. The dates of your meter readings are recorded as well as the readings themselves. Please refer to the rate sheet in the next section which will give you your electric rate according to rate class.

This is the **number of your rate class**. You may refer to the enclosed rate sheet to determine your electric rate.

**Base Charges** - The 'Facility Charge' is the monthly base amount charged for providing electric service. It includes costs of meter reading, billing, administrative overhead, maintenance and repair of system poles, lines, transformers, meters, etc. The line 'Regulatory Compliance Fee' denotes costs mandated to MCREA by outside entities (legislative mandates, EPA regulations, etc.) that are out of Morgan County REA's control. The line 'Energy Efficiency' denotes the cost for MCREA to offer energy efficiency products and services. These have been itemized by MCREA per member account.

**Energy Charges** - The 'Purchased Power kWh Rate' denotes the cost of purchasing our power from our provider, Tri-State Generation & Transmission, and the delivery of that power to MCREA's substations. The "MCREA kWh Rate" are costs associated with the distribution of electricity from MCREA's substations to your home or business. State tax is payable on total charges. If you live within Wiggins town limits, you may also pay the corresponding taxes for the city in which you live.

Additional information about your average daily electrical use and average daily cost is provided at the bottom of each bill.
